

EASTERN IOWA DX ASSOCIATION

2045 Deepwood Ct. S.E.
Cedar Rapids, Ia. 52403

Dx Repeater: 144.59/145.19 MHZ
Weekly DX Net 9:30 Wednesdays

September 1982

QRM from the Vice President

Well, the ARRL national is behind us now and I have just about recovered! All club sponsored programs were well presented and attended. Thanks to all who helped support the club activities. Now with school starting, and the yard work winding down, the yearly subconscious fall affliction of contestitis is beginning to take it's toll. It's time to take that climb up the tower to check the connectors on the coax and the rotors. See you in the pile ups! N4RR

FIRST LAW OF PROCRASTINATION:

Procrastination shortens the job and places the responsibility for its completion on someone else (the authority who imposed the deadline).

Next Club Meeting

The next meeting is September 17th in the REA building of Marion. The time is the usual 7:30. Dale WØIZ will give a presentation on satellite communication and there will be election of new officers for the next year. Think about who you would like to represent the club for next year.

DX want list

It's time to dust off the pages and make an update. The participation is up to 24 now but this last summer things got mighty slow! Hopefully with fall and winter approaching more of us (me included) will start contributing to the ever quest of a new country. Bring your updates to the club meeting.

WESTLINKREPORT

ARRL PROPOSED H.F. PHONE EXPANSION

Band	Extra & Above	Advanced & Above	General & Above
80/75	3.750 - 3.775	3.775 - 3.850	3.850 - 4.000

Cedar Rapids, Iowa 52406

July 26, '82

Dr. Robert W. Walstrom WØEJ
PRESIDENT EIDX
RR4 Box 627
Cedar Rapids, Ia 52401

Dear Wade,

On behalf of the membership of the CVARC, I wish to extend my thanks and appreciation for the active and vital role played by the Eastern Iowa DX Association, in our recent ARRL NATIONAL CONVENTION. Please inform your membership how grateful we are for the participation displayed by your whole club.

I want to thank you personally too, as you have supplied valuable aid during the planning and organization phases for that operation.

As you know, many of your members are also members of the CVARC, so their participation could be counted either way. However, it was very pleasing to see EIDX members who were not members of the CVARC, working side-by-side with our members to see that the convention was successful. We have received compliments from the ARRL folks, exhibitors, guests and workers on organization and operation of the convention. Your club contributed mightily to see that that was so. Many thanks!

I thought your booth, and the staffing of that booth was well done.

One of your members also won the CW contest (class II QS0), among all local operators. Mr. Dale Repp (WØIZ) succeeded to copy, for the record, at a speed of 50WPM. In that speed range, the code begins to sound like a steady, or interrupted, blur... Congratulations to Dale.

I understand the DX breakfast, forums and talks were also well done, and well attended. So you see, all the preliminary efforts were well worth the effort.

Sincerely,

C.A. Southard NØII
President CVARC

WØGQ

**SECOND LAW
OF PROCRASTINATION:**
Procrastination reduces anxiety by reducing the expected quality of the project from the best of all possible efforts to the best that can be expected given the limited time.

Calendar of Events

FOURTH LAW

OF PROCRASTINATION:

Procrastination may eliminate the job entirely if the need passes before the job can be done.
